7.80.0 New Features

This guide lists new features available in *eTapestry* 7.80.0, released on August 27, 2023.

Search for queries by name

In addition to the improvements we've made to help you find queries for Reports in our 7.79.0 release, you can now search for specific queries in the following areas:

- Communications
- Mass Update
- AddressFinder (NCOA)
- Donor Renewal Rates Report
- Recognition According to Tribute Types Report
- Recognition According to Funds/Campaigns/Approaches Report
- Recognition According to Gift Amount Ranges Report

Auto process report email

To ensure your organization receives the auto process reports, *eTapestry* now prompts you to confirm the email address to send reports every 90 days.

Every 90 days, admin users will be prompted to update or confirm the auto process email when they log in.

> *Note:* You can update the email at any time under **Preferences** from **Management**, **My Organization**.

AddressFinder (NCOA) enhancements

Based on your feedback, *eTapestry* no longer updates personas with last modified information, such as the user who last modified the account and the date it was last modified, when AddressFinder (NCOA) has no updates.

DIY Forms: Automatic notification email enhancements

Based on your feedback, when an online donation is made, the automatic notification email now includes information if the donation is a one-time gift under **Frequency**. Previously, frequency information was only included for recurring gifts.

For more information, see Automatic Notification Email.

Expired scheduled items automatically delete after 60 days

With this release, scheduled items that have expired are now automatically deleted after 60 days.

Look and feel improvements to email notifications

To provide a more consistent experience across eTapestry, the look and feel of email notifications in the following areas has been updated with more improvements to come in future releases:

- JustGiving
- AddressFinder (NCOA)
- Wealth Rating
- Constant Contact
